

Kindergarten Summer Reading List 2026-2027

Children are made readers on the laps of their parents. -Emilie Buchwald

We highly recommend creating a night time routine that includes reading to your child. This is a great way to wind down after a long day and have some special time with your child. Reading to your child has tremendous benefits including vocabulary development, problem solving skills, concentration/focus, memory, listening skills and a love of reading!
